Release notes for openPEPPOL Validation Artifact v3.3.0_RC1, Fall Release 2016

openPEPPOL AISBL

2016-09-21

This release from openPEPPOL includes changes to the validation artifacts (VA's), changes to the Common BIS document, and the removal of support for BIS 1.0 versions. This version will be **mandatory in use from 15. November 2016 12:00 CEST**.

Overview of changes

1. Several validation rules have been optimized according to incoming RFCs
2. Added chapter in Common BIS for validation principles. .Editorial updates BIS 1a (Catalogue)

Changes to Validation Artifacts (VA)

OpenPEPPOL is not committed to continue to provide the ODS files in the coming releases, as the Schematron files are considered the authoritative source for the Validation artefacts.

Table 1. Changes pr. transaction
